DETAILED ACTION

1. This action is responsive to communications: Amendment B filed 02/12/2004 to the original application filed 02/09/2000.
2. Claims 1-21 are currently pending in this application. Claims 1, 10, and 19 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 and 19-21 drawn to a method of annotating a document of a document management system, classified in 715, subclass 524.
 - II. Claims 10-18 drawn to a method of annotating a document in a document management system capable of dynamically changing a system configuration of the document, classified in class 709, subclass 220.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as detecting the annotation added to the scanned document, and invention II has separate utility such as assigning the executable code to an active property for dynamically changing the system configuration of the document in include the desired configuration which achieves the desired operation. See MPEP § 806.05(d).

Art Unit: 2176

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
